

Core Peer Tutors are students who are available to help you advance your knowledge and study habits in your Core courses. Core Peer Tutors help you comprehend readings, course content, and assignments as well as coach you in reading, note-taking, and study skills. Each tutor is linked to one Core course.

Below is a list of the Core Peer Tutors and their contact information as well as the Lead Professor for each Core course, who supervises the tutors. *For a schedule of when and where tutors are normally available to meet with you, consult your Core course syllabus or ask your professor. Feel free to contact a tutor directly via their Eagles email and set up a time to meet.*

Steps to take when you're having difficulty in class:

1. Meet with your professor during his/her office hours (located on syllabus) on a weekly basis.
2. Seek tutoring on a consistent basis (tutors, hours, location listed on syllabus).
3. Allocate more time and attention to the course.
4. Study with a classmate/group who is/are familiar with the course material.
5. Review course material/notes before and after class to aid retention/understanding of the material.
6. Ask questions in class.
7. Continue meeting with your professor if you continue to struggle.
