All individuals who register a vehicle with the Department of Campus Safety and/or operate a vehicle on Concordia campus shall abide by the regulations set down in the Concordia University Vehicle Code. All provisions of the California Vehicle Code are applicable on Concordia property except where modified by the Concordia University Vehicle Code (CVC 21107.8). California law requires that every owner and driver of a motor vehicle in this state maintain financial responsibility through liability insurance coverage. Anyone who registers a vehicle or drives on Concordia property must meet this requirement (CVC 16020, 16028).

* The State of California requires that any non-resident student over the age of 18 must obtain a California driver license and California vehicle registration within 20 days of entering California.

☑ I understand the above and agree to abide by all rules and regulations (State of California and Concordia University) with respect to driving and parking a vehicle on the property of Concordia University. I understand that failure to do so may result in the loss of my driving and parking privileges on campus.

☑ I certify that the above described vehicle is currently insured with at least the minimum insurance coverage required by the State of California and I agree to keep this insurance in force while the vehicle is operated or parked on campus.

☑ I also certify that I am the legal owner or authorized operator of this vehicle and that I am responsible for any citations incurred regardless of who was driving the vehicle at the time the citations were issued.
