A MESSAGE FROM THE PROVOST

A key calling and privilege of a Christian university is that its faculty, staff, and students investigate God's world and Word and then share their questions, discoveries, insights, applications, and creations with others. In this way, they not only join in the pursuit of truth, goodness, and beauty, but offer what they have learned and produced to aid their neighbors. Collected here are the academic accomplishments of CUI's community from 2020. May God bless this learning and creativity to care for His creation and expand the kingdom of His salvation. *Soli Deo Gloria.*
